

Raunaq Gupta

Portfolio: raunaqgupta.com/work • Email: mail@raunaqgupta.com

Product designer with 10+ experience shipping enterprise web applications and developer tools across startups and large organizations. I complement product teams with expertise in systems design, an intuition for designing for developers and simplifying complex enterprise workflows.

Experience

Cisco (Splunk, AppDynamics) • Senior product designer • 2021 - Current

- Designed new verticals for Database monitoring, Application security, and Application optimization across Cisco Observability Platform, Splunk Observability Cloud, and Splunk IT Service Intelligence.
- Contributed components and patterns to Splunk's design system for improved information architecture consistency, AI-assisted workflows, and data visualizations adopted by 5+ teams.
- Mentored, and led interns to deliver small- to medium-sized projects.

PlanetScale • Design engineer • 2018 - 2021

- Led design and frontend development to ship a 0→1 product and aid in a Series B of \$22M.
- Simplified configuration & deployment of multi-cloud, multi-region, and shardable databases within minutes.
- Design, development and maintenance of the web application, marketing, and documentation websites.

Various • Contract • 2016 - 2018

Worked as a contract designer and frontend engineer on multiple projects spanning industries including payment solutions (BillDesk), virtual networking (Juniper Networks), journalism (PARI), fintech (Wobe), and team productivity (Baloornr).

Arkin • Design engineer • 2014 - 2016

- Designed and developed a 0→1 product to acquisition (VMWare) while supporting an engineering team of 40 engineers in a 2-person design team.
- Simplified software-defined datacenter monitoring with emphasis on highly-scalable visualizations to accommodate thousands of monitored devices.
- Other notable design pieces include a natural language search interface, and a novel icon design kit.

Note: Co-creator on patent [US9923782B1](#) for a topology visualization.

IBM • Product design intern • 2013

2 month stint on the IBM Watson team.

Aricent Networks • Software engineer • 2010 - 2012

Wrote C++ functions inside a proprietary visual editor to enable Alcatel Lucent's telephony software deployments.

CPA Global • Associate software engineer • 2009 - 2010

Wrote database migration scripts to onboard new clients on their patent portfolio management system.

Education

Carnegie Mellon University

Master of human-computer interaction • 2012 - 2013

Amity University

Bachelors of Technology in computer science • 2012 - 2013

Skills

Interaction design, User research, Design systems, Prototyping, Frontend development, Design operations, Market research
